CIVIL ENGINEER'S CERTIFICATE OF ROUGH/PRECISE GRADE

Grading Permit No.: _____ Plan No.: _____ Date: _____

Project: Tract/Parcel Map No.: _____ Lot(s): _____, Inclusive

Address: _____

Owner: _____

I hereby approve the precise grading for the referenced project in accordance with my responsibility under the City of Westminster Municipal Code and the Uniform Building Code. The volume of earth materials moved by cut and/or fill grading **agrees/does not agree** with the yardage stated on the approved grading plan. Precise grading has been completed in conformance with the approved grading plans, which includes:

1. Staking of property corners
2. Line and grade for all building(s) pad elevations. Pad elevation is . inches (higher/lower) from elevation shown on the approved grading plan.
3. Line and grade for all building (s) forms location and elevation. Form elevation is . inches (higher/lower) from elevation shown on the approved grading plan.
4. Line and grade for all engineered drainage devices and retaining walls.
5. Setting of all monuments in accordance with the recorded tract/parcel map. All centerline ties have been set and the records have been submitted to the City.
6. Location of permanent walls or structures on property corners or property lines.
7. All structures have been constructed at the locations as shown on the approved grading plans.
8. A FEMA elevation certificate has been prepared and submitted to the City of Westminster, Engineering Division, whenever the property is located within a Flood Zone.
